

# Senior Field Service Engineer

Remote

**Job Summary:** Integration design, installation/installation support, and on-site commissioning of voltage regulators and excitation or generator protection systems.

**Reports to:** General Manager Basler Services

**Essential Duties:**

- Complete wiring and/or provide technical direction to craft labor for installation of new generator excitation and protection and controls equipment.
- Responsible for developing installation task lists and designs.
- Responsible for material and equipment procurement on assigned projects.
- Facilitate mobilization, demolition, and installation activities including equipment and tool shipping, scheduling, and supervision of craft labor on site.
- Assist with maintenance and testing of generator excitation systems, protective relays, and other auxiliary equipment.
- Participate in educational activities.
- Write trip reports that describe, in detail, the system and device failure and actions taken. Review the system problem and solution with the greater Engineering group.
- Travel to customer sites to oversee installations of equipment, perform system startup or required maintenance, provide instructions for customer maintenance, or repair equipment.
- This position requires 50%–65% travel throughout the US. Remaining office time is focused on engineering designs and reporting for assigned projects.
- Perform all other duties as assigned.

**Requirements:**

- B.S.E.E. degree or equivalent.
- 7–10 years' experience in design engineering is desired.
- Generator/electrical system modeling experience desired.
- Candidates must have utility/power plant experience.
- Experience with controls systems, prime mover controls including balance of plant PLC with SCADA systems or HMI is preferred.
- Travel to customer sites to oversee installations of equipment, perform system startup or required maintenance, provide instructions for customer maintenance, or repair equipment.
- Drawing update software experience (AutoCAD, Bluebeam, or similar).
- Proficient computer and oral and written communication skills.
